

MANAGEMENT UNIT NAME: DRYDEN FOREST

PLAN PERIOD: APRIL 1, 2021 TO MARCH 31, 2031

ANNUAL WORK SCHEDULE: APRIL 1, 2026 TO MARCH 31, 2027

AWS - 1 ANNUAL SCHEDULE OF WATER CROSSINGS TO BE CONSTRUCTED/REPLACED

Year of Construction	Area of Concern Identifier	Water Crossing Identifier (MNR #)	OBM #	Road Identifier	Water Crossing Standard Identifier	Water Crossing Structure	Culvert Diameter (mm)	Construction Conditions	Timing Restrictions - no in stream work from	Future Removal (Y/N)	Fisheries Act Review Completed (Y/N/NA)	Fisheries Act Review Results	
2026/27	W01	500C	49552	Angie Rd	NA	Culvert	800	General+ Culv_1 Standard applied as per FMP Appendix P , timing restriction as specified, Practices as outlined in AWS Appendix D, where applicable. Where conditions differ FMP Appendix P is authoritative. Forest Management Guide for Conserving Biodiversity at the Stand and Site Scale, Section 5.1.2 pages 136-145 is followed.	April 1st - June 20th	N	Y	(A)	LOW
2026/27	W01	501C	53550	Buddy Rd	NA	Culvert	800	General+ Culv_1 Standard applied as per FMP Appendix P , timing restriction as specified, Practices as outlined in AWS Appendix D, where applicable. Where conditions differ FMP Appendix P is authoritative. Forest Management Guide for Conserving Biodiversity at the Stand and Site Scale, Section 5.1.2 pages 136-145 is followed.	April 1st - June 20th	N	Y	(A)	LOW
2026/27	W01	502C	53550	Buddy Rd	NA	Culvert	800	General+ Culv_1 Standard applied as per FMP Appendix P , timing restriction as specified, Practices as outlined in AWS Appendix D, where applicable. Where conditions differ FMP Appendix P is authoritative. Forest Management Guide for Conserving Biodiversity at the Stand and Site Scale, Section 5.1.2 pages 136-145 is followed.	April 1st - June 20th	N	Y	(A)	LOW
2026/27	W01	512C	49554	Riley Rd	NA	Culvert	800	General+ Culv_1 Standard applied as per FMP Appendix P , timing restriction as specified, Practices as outlined in AWS Appendix D, where applicable. Where conditions differ FMP Appendix P is authoritative. Forest Management Guide for Conserving Biodiversity at the Stand and Site Scale, Section 5.1.2 pages 136-145 is followed.	N/A	N	Y	(A)	LOW
2026/27	W01	513C	45552	Tay Lk Rd North	NA	Culvert	1200	General+ Culv_1 Standard applied as per FMP Appendix P , timing restriction as specified, Practices as outlined in AWS Appendix D, where applicable. Where conditions differ FMP Appendix P is authoritative. Forest Management Guide for Conserving Biodiversity at the Stand and Site Scale, Section 5.1.2 pages 136-145 is followed.	April 1st - June 20th	N	Y	(A)	LOW
2026/27	W08	514C	45552	Horseshoe Rd	NA	Culvert	800	General+ Culv_1 Standard applied as per FMP Appendix P , timing restriction as specified, Practices as outlined in AWS Appendix D, where applicable. Where conditions differ FMP Appendix P is authoritative. Forest Management Guide for Conserving Biodiversity at the Stand and Site Scale, Section 5.1.2 pages 136-145 is followed.	April 1st - June 20th	N	Y	(A)	LOW
2026/27	W01	515C	45552	Horseshoe Rd	NA	Culvert	600	General+ Culv_1 Standard applied as per FMP Appendix P , timing restriction as specified, Practices as outlined in AWS Appendix D, where applicable. Where conditions differ FMP Appendix P is authoritative. Forest Management Guide for Conserving Biodiversity at the Stand and Site Scale, Section 5.1.2 pages 136-145 is followed.	April 1st - June 15th	N	Y	(A)	LOW
2026/27	W08	516C	44552	Stewart W Rd	NA	Culvert	800	General+ Culv_1 Standard applied as per FMP Appendix P , timing restriction as specified, Practices as outlined in AWS Appendix D, where applicable. Where conditions differ FMP Appendix P is authoritative. Forest Management Guide for Conserving Biodiversity at the Stand and Site Scale, Section 5.1.2 pages 136-145 is followed.	Sept 1 -Jun 20	N	Y	(A)	LOW
2026/27	W08	519C	51556	Blk 21.152	NA	Culvert	600	General+ Culv_1 Standard applied as per FMP Appendix P , timing restriction as specified, Practices as outlined in AWS Appendix D, where applicable. PLAN PERIOD: APRIL 1, 2021 TO MARCH 31, 2031

ANNUAL WORK SCHEDULE: APRIL 1, 2026 TO MARCH 31, 2027

AWS - 2 ANNUAL SCHEDULE OF WATER CROSSINGS TO BE REMOVED

Water Crossing Identifier	Road Identifier	Water Crossing Structure	Water Crossing Standard	Decommissioning Activities/Conditions	Fisheries Act Review Completed (Y/N/NA)	Fisheries Act Review Results
518C	Blk 21.152	Temporary Winter Crossing as per Appendix D of the AWS	Snow_1	Every effort will be made to preserve the integrity of the existing vegetation along the banks and in the stream bed. The installation will be completed with trained and experienced operators to ensure the Forest Management Guide for Conserving Biodiversity at the Stand and Site Scale, Section 5.1.2 pages 136-145 is followed. This winter crossing will be removed by March 31st after the date of installation.	N/A	N/A
519C	Blk 21.152	Temporary Winter Crossing as per Appendix D of the AWS	Snow_1	Every effort will be made to preserve the integrity of the existing vegetation along the banks and in the stream bed. The installation will be completed with trained and experienced operators to ensure the Forest Management Guide for Conserving Biodiversity at the Stand and Site Scale, Section 5.1.2 pages 136-145 is followed. This winter crossing will be removed by March 31st after the date of installation.	N/A	N/A
521C	Blk 21.118	Temporary Winter Crossing as per Appendix D of the AWS	Snow_1	Every effort will be made to preserve the integrity of the existing vegetation along the banks and in the stream bed. The installation will be completed with trained and experienced operators to ensure the Forest Management Guide for Conserving Biodiversity at the Stand and Site Scale, Section 5.1.2 pages 136-145 is followed. This winter crossing will be removed by March 31st after the date of installation.	N/A	N/A
522C	Blk 21.118	Temporary Winter Crossing as per Appendix D of the AWS	Snow_1	Every effort will be made to preserve the integrity of the existing vegetation along the banks and in the stream bed. The installation will be completed with trained and experienced operators to ensure the Forest Management Guide for Conserving Biodiversity at the Stand and Site Scale, Section 5.1.2 pages 136-145 is followed. This winter crossing will be removed by March 31st after the date of installation.	N/A	N/A
523C	Blk 21.118	Temporary Winter Crossing as per Appendix D of the AWS	Snow_1	Every effort will be made to preserve the integrity of the existing vegetation along the banks and in the stream bed. The installation will be completed with trained and experienced operators to ensure the Forest Management Guide for Conserving Biodiversity at the Stand and Site Scale, Section 5.1.2 pages 136-145 is followed. This winter crossing will be removed by March 31st after the date of installation.	N/A	N/A
526C	Blk 21.205	Temporary Winter Crossing as per Appendix D of the AWS	Snow_1	Every effort will be made to preserve the integrity of the existing vegetation along the banks and in the stream bed. The installation will be completed with trained and experienced operators to ensure the Forest Management Guide for Conserving Biodiversity at the Stand and Site Scale, Section 5.1.2 pages 136-145 is followed. This winter crossing will be removed by March 31st after the date of installation.	N/A	N/A
528C	Blk 21.220	Temporary Winter Crossing as per Appendix D of the AWS	Snow_1	Every effort will be made to preserve the integrity of the existing vegetation along the banks and in the stream bed. The installation will be completed with trained and experienced operators to ensure the Forest Management Guide for Conserving Biodiversity at the Stand and Site Scale, Section 5.1.2 pages 136-145 is followed. This winter crossing will be removed by March 31st after the date of installation.	N/A	N/A
529C	Blk 21.220	Temporary Winter Crossing as per Appendix D of the AWS	Snow_1	Every effort will be made to preserve the integrity of the existing vegetation along the banks and in the stream bed. The installation will be completed with trained and experienced operators to ensure the Forest Management Guide for Conserving Biodiversity at the Stand and Site Scale, Section 5.1.2 pages 136-145 is followed. This winter crossing will be removed by March 31st after the date of installation.	N/A	N/A
530C	Blk 21.219	Temporary Winter Crossing as per Appendix D of the AWS	Snow_1	Every effort will be made to preserve the integrity of the existing vegetation along the banks and in the stream bed. The installation will be completed with trained and experienced operators to ensure the Forest Management Guide for Conserving Biodiversity at the Stand and Site Scale, Section 5.1.2 pages 136-145 is followed. This winter crossing will be removed by March 31st after the date of installation.	N/A	N/A
531C	Blk 21.266	Temporary Winter Crossing as per Appendix D of the AWS	Snow_1	Every effort will be made to preserve the integrity of the existing vegetation along the banks and in the stream bed. The installation will be completed with trained and experienced operators to ensure the Forest Management Guide for Conserving Biodiversity at the Stand and Site Scale, Section 5.1.2 pages 136-145 is followed. This winter crossing will be removed by March 31st after the date of installation.	N/A	N/A
539C	21.084 ORB	Temporary Winter Crossing as per Appendix D of the AWS	Snow_1	Every effort will be made to preserve the integrity of the existing vegetation along the banks and in the stream bed. The installation will be completed with trained and experienced operators to ensure the Forest Management Guide for Conserving Biodiversity at the Stand and Site Scale, Section 5.1.2 pages 136-145 is followed. This winter crossing will be removed by March 31st after the date of installation.	N/A	N/A

Water Crossing Standards

Culv_1: Construction of Single, Closed-Bottom Round Culverts $\leq 1200\text{mm}$

Culv_2: Construction of Open Bottom Arch Culverts

Culv_Decom: Decommissioning of Single, Closed-Bottom Round Culverts $\leq 1200\text{mm}$ or Open Bottom Arch Culvert

Bridge_1: Construction of Clearspan Bridges

Bridge_Decom: Decommissioning of Clearspan Bridges

Snow_1: Construction of Snow Fill and Ice Bridge Crossings

Bank to Bank: *Ministry of Natural Resources/Fisheries and Oceans Canada Protocol for the Review and Approval of Forestry Water Crossings* page 36 is followed. “In cases where an unmapped watercourse is encountered during the construction of a road, and where a proper watershed analysis cannot be completed to determine the Q25 design flow, the culvert must be sized to ensure that it spans from bank to bank within the watercourse”.

MANAGEMENT UNIT NAME: DRYDEN FOREST

ANNUAL WORK SCHEDULE: APRIL 1, 2026 TO MARCH 31, 2027

AWS - 1a: information on proposed Water Crossings
